

Declaration of support from the UIS of pensioners and retirees to the Sahrawi people of the SADR (Sahrawi Arab Democratic Republic)

The UIS of pensioners and retirees reiterates the "constant" position "of support for the just Sahrawi cause, a question of decolonization in accordance with the foundations of international legality and the principles of international law".

The UIS of pensioners and retirees of the WFTU emphasizes "the constant support for the brotherly Sahrawi people in their legitimate struggle to obtain their inalienable right to self-determination".

The Pensioners and Retired UIS welcomes "the advances made in recent times by the Sahrawi cause in Central and Latin America and which have been crowned by the recognition once again by Bolivia, Peru and Honduras of the Sahrawi Republic, advances which will certainly and soon be followed by other similar steps by other States in the region".

The Pensioners and Retired UIS also recalls the latest decisions of the European Court of Justice annulling the two agreements concluded between the EU and the Moroccan Kingdom in the field of agriculture and fisheries, while reaffirming that the territory Western Sahara is considered as "an independent territory distinct from Moroccan territory and its recognition of the legal person and legal quality of the Polisario Front, being the only legitimate representative of the Saharawi people".

The UIS of pensioners and retirees took the opportunity to also congratulate "the brotherly Sahrawi people and its leadership, for the great victories recently won by the Sahrawi cause at the political and judicial levels".

For the diplomat, "the active participation" of the Sahrawi Republic represented by its President Ibrahim Ghali, in the 6th Summit of the African

Union (AU) and the European Union (EU), held in Brussels, is intended to be "a success international recognition of the SADR and which has completely undermined all the alleged theses of liquidation of the Sahrawi cause" and put an end to all interpretations and speculations.

This participation "comes in the wake of the project for the suspension of the membership of the Sahrawi Arab Democratic Republic (SADR) within the AU, after the last decisions of the 35th African Summit which were in favor of the Sahrawi cause. , like the reactivation of the mechanism of the African Troika on the cause of Western Sahara and enable it to play an active role in the resolution of the Saharawi conflict",

The UIS of pensioners and retirees calls on the UN to apply its resolutions and to set the date for the self-determination referendum of the Saharawi people on the basis of the Spanish census of 1974.

The UIS of pensioners and retirees wishes to denounce all the repressions experienced by the Saharawi people in their occupied lands and supports the demands of Saharawi workers and retirees, namely:

- Recover the violated rights of the former statutes of the Saharawi workers and pensions of PHOSBOUCRAA
- The abolition of the general tax on practical income on the salary.
- Review the leave allowance
- Satisfy the other rights violated by the Moroccan OCP group
- Denounces the absence of the rights of expression and demonstration

The UIS of pensioners and retirees reminds everyone that soon half a century (1975-2022) that part of the Sahrawi people lives in refugee camps in Tindouf in the South of Algeria on the territory of this one, the UIS of pensioners of pensioners and retirees would like to salute this country for all the help it has given to the peoples who are fighting for their freedom and who have been defending this cause since that time.

The UIS of pensioners and retirees, hopes that the conflict between Morocco and the Polisario finds a solution as soon as possible so that peace returns to the region, that the two parties observe a ceasefire so that it does not is no longer dead and that finally we begin to apply all the resolutions.

The Pensioners' UIS wishes to sound the alarm on the risk of escalation in the conflicts in the Maghreb region of the people by the presence of Israel, which will complicate conflicts, such as that of Libya, that of Mali and that of the SAHEL borders

Israel with the help of imperialism, economic Zionist lobbies, which manage most of the banks and multinationals has managed to move away from its conflicts and normalize its relations with many Arab and African countries, to better and sell his arming in one of the regions calms them down.

The most sophisticated weapons begin to circulate in force, military bases are set up above all along the Mediterranean coast, from there it is not only Africa, Algeria or the peoples of the North of this continent who will sympathize, but also the countries of the South of the European continent. The aims of imperialism and Israel on Africa and particularly on the Maghreb are becoming clearer to destabilize the region, the UIS of pensioners and retirees wishes to warn, the countries which have normalized their diplomatic relations with the Zionist entity that it is not the path to peace that they believe they have chosen
